

June the 08th – Models and mechanisms

- 08:30-09:00** > Welcome > Registration
- 09:00-10:20** > Theoretical frameworks
- 09:00-09:20** > Opportunities for transformation in geriatric medicine *Joel Ankri - France*
- 09:20-09:40** > The frailty paradigm *Matteo Cesari - France*
- 09:40-10:00** > Stress and Resilience *Alon Chen - Israel*
- 10:00-10:20** > Resilience in complex networks *Baruch Barzel - Israel*
-
- 10:20-10:50** > Break
- 10:50-11:50** > Molecular and cell biology
- 10:50-11:10** > Genetic basis of ageing *Claudio Franceschi - Italy*
- 11:10-11:30** > Epigenetic reprogramming and cellular *Andreas Fisher - Germany*
- 11:30-11:50** > Role of protein modification and maintenance systems in cellular aging
Bertand Friguet - France
-
- 11:50-14:00** > Break (no lunch provided)
- 14:00-15:00** > Integrated systems – Part I
- 14:00-14:20** > Brain reserve, cognitive reserve *Alison Murray - United Kingdom*
- 14:20-14:40** > Role of corticosteroids in the brain's response to stress
Dominique De Quervain - Switzerland
- 14:40 -15:00** > Immunosenescence *Graham Pawelec - Germany*
-
- 15:00-15:30** > Break
- 15:30-16:30** > Integrated systems – Part II
- 15:30-15:50** > Sleep and circadian rhythm disruption : mechanisms and consequences
Russel G. Foster - United Kingdom
- 15:50-16:10** > Cancer and aging : converging biological mechanisms *Eric Gilson - France*
- 16:10-16:30** > Plasticity in the ageing brain *Emrah Duzel - Germany*
- 16:30-18:10** > Session Neurovasculaire : Autour de l'AVC du sujet âgé
- 16:30-16:50** > Faut-il toujours thrombolysier les AVC du sujet âgé? *David Calvet - Paris*
- 16:50-17:10** > Place de la thrombectomie chez le sujet âgé *Frédéric Clarençon - Paris*
- 17:10-17:30** > AOD, FA et AVC du sujet âgé? *Olivier Hanon - Paris*
- 17:30-17:50** > La fermeture de l'auricule, une alternative chez le sujet âgé?
Guillaume Duthoit - Paris
- 17:50-18:10** > L'admission des patients vasculaires âgés en réanimation
Hélène Vallet - Paris

June the 09th – Translation to the clinic

- 09:00-10:20** > Biomarkers
- 09:00-09:20** > Biomarkers of Ageing and Frailty *John C. Mathers - United Kingdom*
- 09:20-09:40** > Neuroimaging of ageing *Marc Dhenain - France*
- 09:40-10:00** > Neuroimaging of pain *Gian Domenico Iannetti - United Kingdom*
- 10:00-10:20** > Neuroimaging of Delirium *Robert D. Stevens - USA*
-
- 10:20-10:50** > Break
- 10:50-11:50** > Post-ICU syndromes
- 10:50-11:10** > Vulnerability to depression and PTSD *Christel Becker - France*
- 11:10-11:30** > Chronic critical illness *Zudin Puthuchearry - Malaysia*
- 11:30-11:50** > Sepsis, cognitive impairment and dementia *Michael Heneka
Germany*
-
- 11:50-14:00** > Lunch (no lunch provided) + Poster Session
- 14:00-15:40** > Anti-aging therapies
- 14:00-14:20** > Stem cells to cheat aging? *Jean-Marc Lemaître - France*
- 14:20-14:40** > Immunomodulation of psychiatric disorders *N. Müller - Germany*
- 14:40-15:00** > Telomerase gene therapy in aging *Maria Blasco - Spain*
- 15:00-15:20** > Enhanced recovery after surgery *Martin Hubner - Switzerland*
- 15:20-15:40** > Strategies to prevent and treat delirium in the aging patient
Arjen Slooter - Nederland
-
- 15:40-16:10** > Break
- 16:10-17:30** > Care of the Elderly Patient in the ICU—“Geriatric critical care”
- 16:10-16:30** > Post ICU follow-up *Konrad Schmidt - Germany*
- 16:30-16:50** > Recovery trajectories after critical illness *Brown Connolly
United Kingdom*
- 16:50-17:10** > Neurocritical care for the elderly patient *Jan Claassen - USA*
- 17:10-17:30** > Epidemiology of geriatric critical care *B. Guidet - France*
-
- 17:30 - 17:45** > Concluding remarks - End of Conference
Jean Mantz Award Redemption
